

Music Dance Drama

Developed by a Professional Educator
with an Honours Degree in Performing Arts

Early Childhood Development happens through play. Exploring new ideas, collaborating with peers, imagining and creating exciting stories and sharing experiences, are all necessary for wholesome childhood development.

Our curriculum is deliberately curated to meet the developmental needs of the whole child while encouraging independent thinking, cultivating curiosity and providing opportunities for learning through gross-motor and fine-motor activities.

Developmental Benefits include:

Bilateral co-ordination and balance, rhythmic understanding, improved confidence, autonomy, collaboration, socio-emotional skills, fine and gross motor skills.

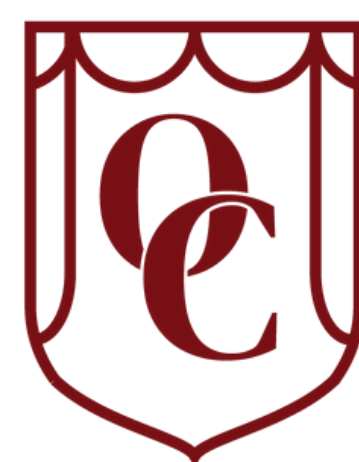

Physical Benefits include:

Body awareness, sensory processing input for regulation, keeping an active body and mind, curating and developing speech through organs of articulation, physical expression of character and body language

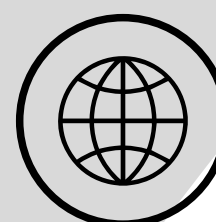

Cognitive Benefits include:

Problem-solving, creative exploration, memory and sequencing, non-verbal communication, language exploration and vocabulary expansion.
